

License Agreement

Software-Engineering
Fichtner/Weisser GbR

The REFLECTK software products (from now on called „software“) are protected by copyright and law, as well as other intellectual property laws and treaties. Unauthorized reproduction, usage or distribution may result in criminal and/or civil prosecution.

This „License Agreement“ is a legal agreement between you (hereafter called „licensee“) and Software-Engineering Fichtner/Weisser GbR (hereafter called „licensor“). It handles the licensing of products in binary form. A license agreement for licensing source code is available separately. All licensor's products including software components, demo files, license files and electronic or printed documentation are under control of this license. By installing, copying, or otherwise using the licensor's products, you agree to be bound by the terms of this agreement. If you do not agree with the terms of this license you must remove all REFLECTK files from your storage devices and cease to use any of the licensor's products.

The terms and conditions of this agreement are collectively termed „the agreement“.

§ 1 License Grant

The licensor grants to the licensee only a non-exclusive and non-transferable world-wide right to use the software and the accompanying documentation in accordance with this agreement and the product license purchased. The licensee may only use the software if it is properly licensed. Software and software subject to prior sale.

§ 2 Scope of the Rights of Use

The following terms are valid for the assignment and use of the software for an unlimited period of time including any documentation. They are not valid for additional services such as installation, integration, parametrization and customization of the software to the licensee's requirements.

§ 3 Rights of Use

The software is not developed or intended for use in any inherently dangerous applications, including applications which may create a risk of personal injury. If you use this software in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure the safe use of this software. The licensor and its affiliates disclaim any liability for any damages caused by use of this software in dangerous applications. The software is handed over to the licensee for its intended use.

Free-of-Charge License

Products with this license come free with no charge no matter if they are used commercial or non-commercial. These products may be freely distributed, provided the distribution package is not modified in any way. Applications, applets or any other software using such a product can be distributed royalty-free, provided that all the conditions in this agreement are met.

Evaluation License

Products with evaluation (demo) license cannot be deployed for commercial in any possible way. The licensee may not build any software, applets or applications for distribution with this version of the software. The evaluation version is to be used solely by the licensee to evaluate the suitability of the software for his needs, that means not productively.

Single Machine/Single User License

The AntTask is licensed per machine. All other products are licensed per user. The single machine license allows the software to be used on one computer within the licensee's organization while the single user license allows the software to be used by one user within the licensee's organization.

Company License

The company license allows the product to be used simultaneously by an unlimited number of users within the licensee's organization.

§ 4 Copyright

This software and the documents accompanying the software in any form, electronic or otherwise, communicated by e-mail or downloaded from the Internet are property of the licensor. All rights not expressly granted here are reserved by the authors. The licensee may not: Copy, emulate, clone, rent, lend, lease, sell or transfer the licensed program, or any subset of the licensed product or accompanying documentation, remove any proprietary notices on the product, the software's source code or accompanying documentation except as provided for in this agreement. This product may include software code subject to the GNU Lesser General Public License (LGPL), The Apache Software License, Version 2.0, PMD license and ASM license (see „Appendix“ for detail).

§ 5 Warranties and Liability

The software is delivered „as is“, without any form of warranty, either implied or expressed. The licensor or the licensor's agents do not guarantee that the software will meet the licensee's requirements, or that its operation will be error free. The entire risk as to the software performance or quality, or both, is solely with the licensee and not the licensor. The licensee assumes responsibility for the selection of the software to achieve the intended results, and for the installation, use, and results obtained from the software. The licensor disclaims all warranties and conditions, either expressed or implied, including, but not limited to, implied warranties of merchantability, fitness for a particular purpose, title, and non-infringement, with regard to the software.

Any liability of the licensor will be exclusively limited to replacement of the product or refund of the license fee paid.

Some jurisdictions do not allow the exclusion of implied warranties or limitations on how long an implied warranty may last, or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from jurisdiction to jurisdiction.

§ 6 Term

This agreement is effective until terminated. The licensee may terminate this agreement at any time by destroying all copies of the software and its associated documentation. This

agreement will terminate immediately without notice from the licensor's if the licensee fails to comply with any of the terms and conditions of this license. Upon termination, licensee must destroy all copies of the software and its associated documentation. The licensee accepts that there will be no refund of any license fees previously paid. The licensee further agrees that the licensor has the right to use any and all means necessary to enforce its rights if the licensee is in breach of this agreement, including but not limited to the right to repossess the software electronically by disabling it remotely over the internet, and that termination will not entitle the licensee to compensation for any losses or potential losses, howsoever caused, that may arise as a result of the termination of this agreement.

§ 7 Reference

The licensee grants the licensor the right to make the licensee's company name and/or logo publicly available on the licensor's website for referencing purposes (reference list). The licensee does not have a right to request the inclusion into the licensor's reference list. The licensee always can request in written form to be removed from the licensor's reference list. The licensee's entry will be removed in an adequate period of time after receiving the removal request.

§ 8 Applicable Law and Place of Jurisdiction

The law of Germany is applicable for all legal relationships of the parties excluding the laws on the international sale of goods.

If the licensee is a merchant, a juristic person under public law or a person having special property under public law, the exclusive place of jurisdiction for all disputes from this contract will be the licensor's place of business. The same is applicable for the case when the licensee does not have a domestic place of general jurisdiction in Germany or the licensor's residence or habitual abode are not known at the time of filing an action. The licensor's capacity to apply to the court of a different place of jurisdiction remains untouched.

§ 9 Severance Clause

If any provision of this agreement is prohibited by law or judged by a court to be unlawful, void or unenforceable, the provision shall, to the extent required, be severed from this agreement and rendered ineffective as far as possible without modifying the remaining provisions of this agreement, and shall not in any way affect any other circumstances of or the validity or enforcement of this agreement.

§ 10 Appendix

This product may include software code subject to the GNU Lesser General Public License (LGPL), The Apache Software License, Version 2.0, PMD license and ASM license. As applicable, the terms of these licenses, and information on obtaining access to the source code used in this product, are available to you at <http://www.reflectk.com> or on application via email or mail (see internet address mentioned above for addresses). The code used in this product is distributed WITHOUT ANY WARRANTY and is subject to the copyrights of one or more authors. For details, see the code for this product and the terms of these licenses.

The following software may be included in this product: ASM. Use of any of this software is governed by the terms of the license below:
